It was also a special mention and congratulations to the Finnish rider Marita Nyquist and her Federation for the “ Fair Play” attitude adopted when there was a problem at final MX test on day 3.

Q4. UEM Enduro 2013 – Regulations.

Various regulations had been examined in Belgrade and the following were additionally changed:

01.8.4: One Make Teams – would be replaced with a “ Trade Team Trophy”

After discussion it was agreed that Teams would still make a pre-inscription and entries as described in above regulation. Teams would consist of 3 riders regardless of classes, categories and machines.

01.47.2: This was discussed in Belgrade and it was now confirmed that the title “ Disqualification” should apply to this regulation,

01.14.1 The sentence and regulation requiring a minimum 5 female participants in any round for the class to be valid was to be removed

Appendix 1 of UEM Rules:

Art1. Confirmed in Belgrade that the 125 4t UEM Cup would not be done.

Art 2: After discussion it was agreed that the 50cc UEM Enduro Cup would be continued as described in current regulations.

There would be some changes to the section “Standards for Organisers”.

To be added: “ Any Promoter who has a contract with the UEM for the Championship has the right to name the Special Tests which then must be so named in all literature, Supplementary Regulations, Programmes etc

The Promoter must inform the organiser of all promotional requirements at least 60 days before the event. The organiser must reserve prominent and sufficient space at the event for the UEM Promoter and their equipment and materials.

Portugal , Sandor Sasvari was our representative: There had been some queries prior to race about Prologue. There were only 5 motorcycles and 3 quads in the UEM Championship. The race and organisation was very good, but there had to be some flexibility in regard distance etc The results service was good, and there was a very good Prize ceremony. Sandor reported that as usual the cars were the main priority in such an event.

There was discussion on fact hat this event had been only one day , and although this had not been ideal it had been necessary to save the Championship.

The results were approved with the recommendation that this event should be of two days duration in accordance UEM Baja regulations.
